

CREAMER

J. FLETCHER CREAMER & SON, INC.

POWERED BY **API Group**

IMPORTANT NOTICE

Attn: Residents

J. Fletcher Creamer & Son, Inc. has been contracted by New Jersey American Water to rehabilitate the water mains in your area.

How will this affect you?

The water main that serves your house will need to be shut down temporarily to allow for the installation of a water main. Please make the necessary arrangements to fill pitchers and bottles of water before this time so that you may have water on hand throughout the day.

When the water is turned back on, you may experience low water pressure or temporary discoloration. Simply allow the water to run until it is clear. We recommend that you **do not wash clothes until your water is running clear.**

The water main on your street is scheduled to be turned off

on Wednesday March 29, 2023, from 9:00AM - 11:00AM.

We realize that this may cause some inconvenience. We are working closely with your local officials to minimize disruptions. If you have any concerns, please call Borough of Red Bank Department of Public Utilities at 732-530-2770 from 8:00 AM - 5:00 PM.

Thank you for your cooperation.

Sincerely,

J. Fletcher Creamer & Son, Inc.
